Volume LXVI

"What Is A University?"

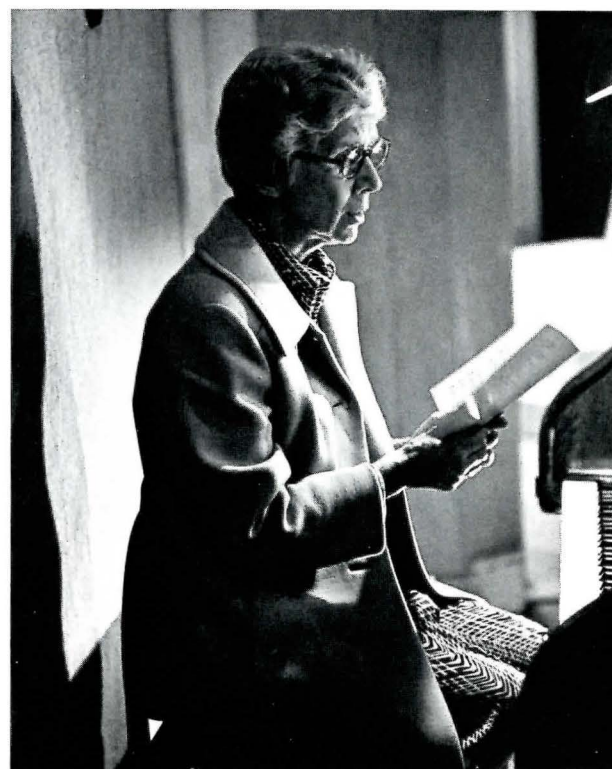

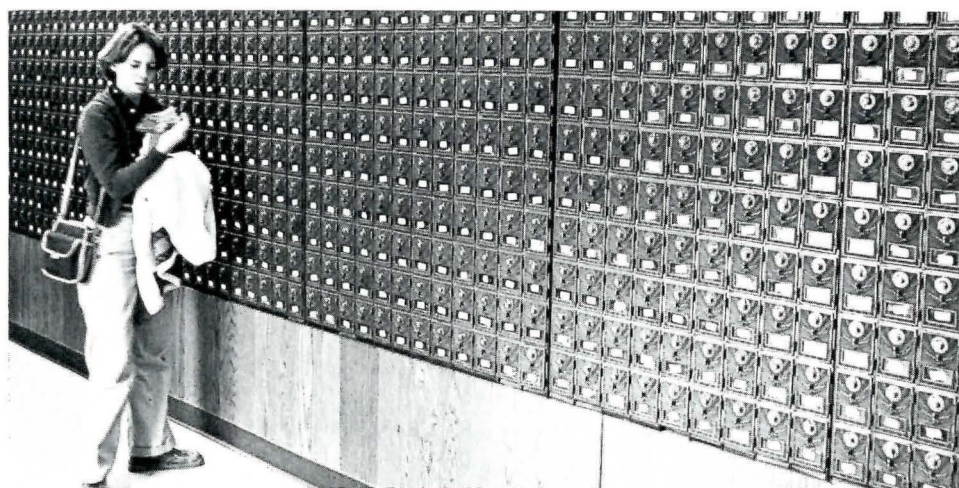

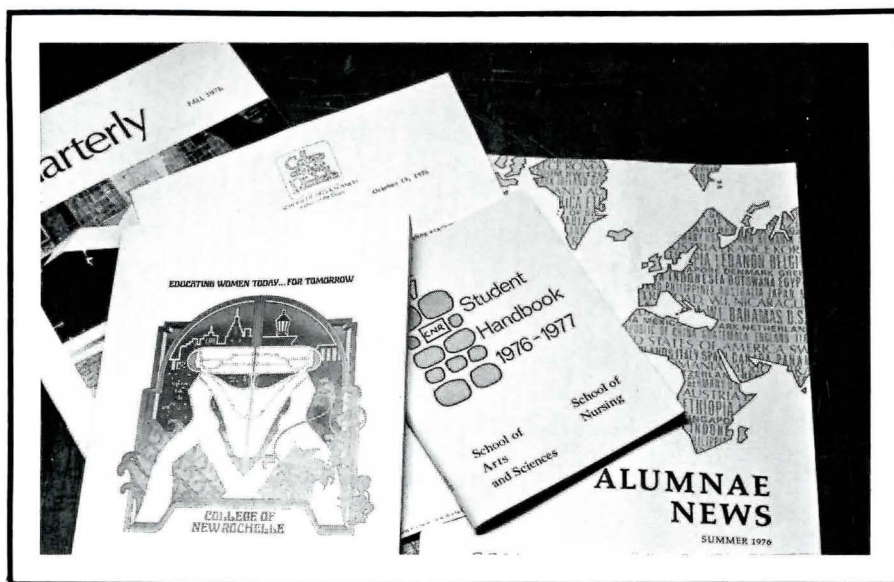

"... it is a school of knowledge
of every kind, consisting of teachers
and learners from every quarter ...

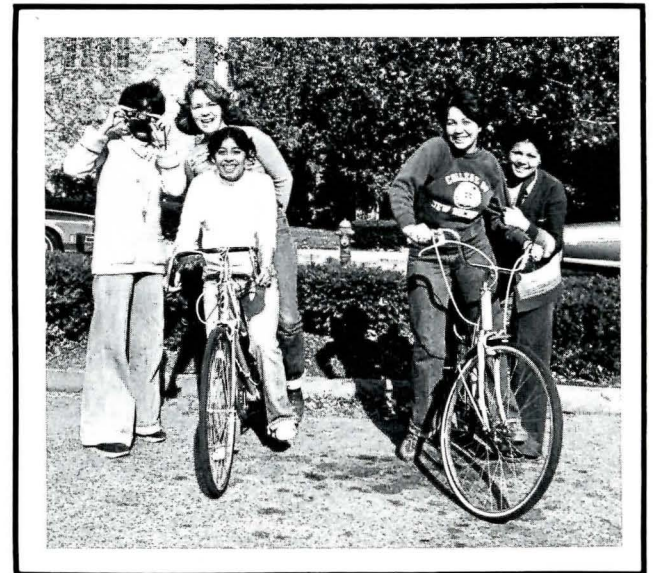

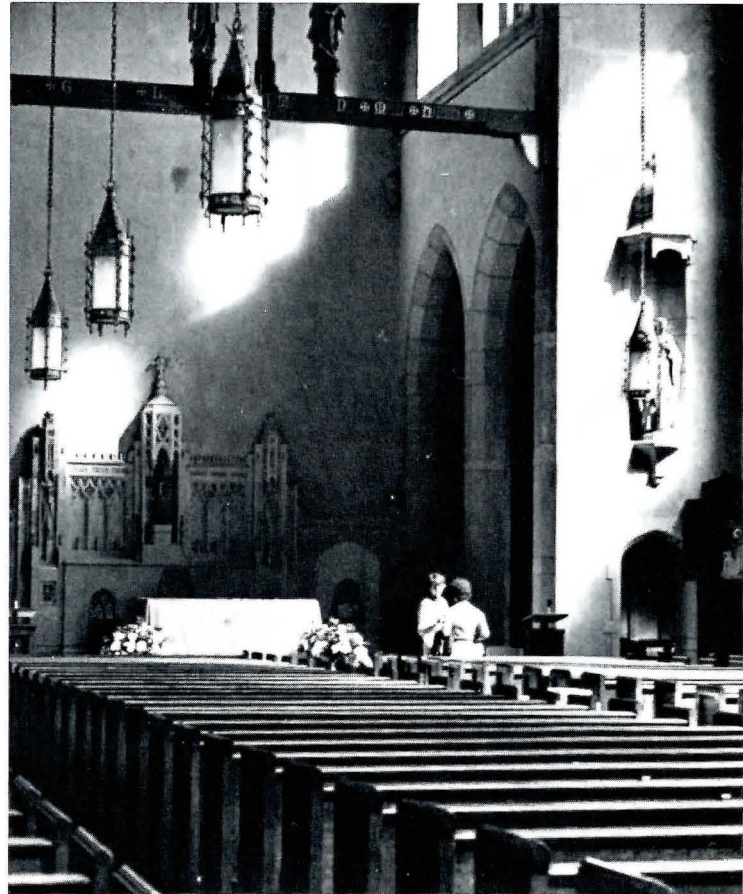

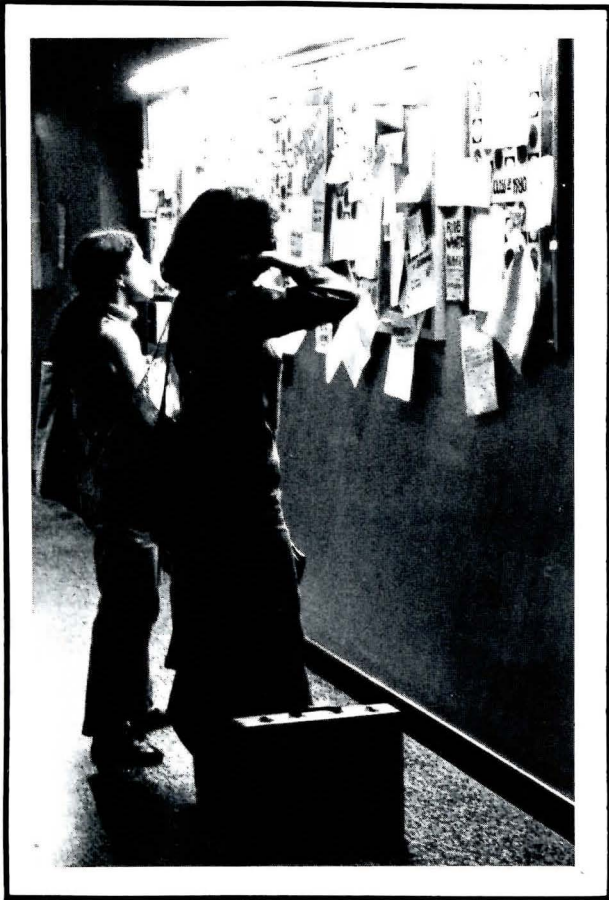

... Many things are requisite to complete and satisfy the idea embodied in this description ...

... a university seems to be a
place for the communication and
circulation of thought

by means of personal intercourse,
through a wide extent of country ...

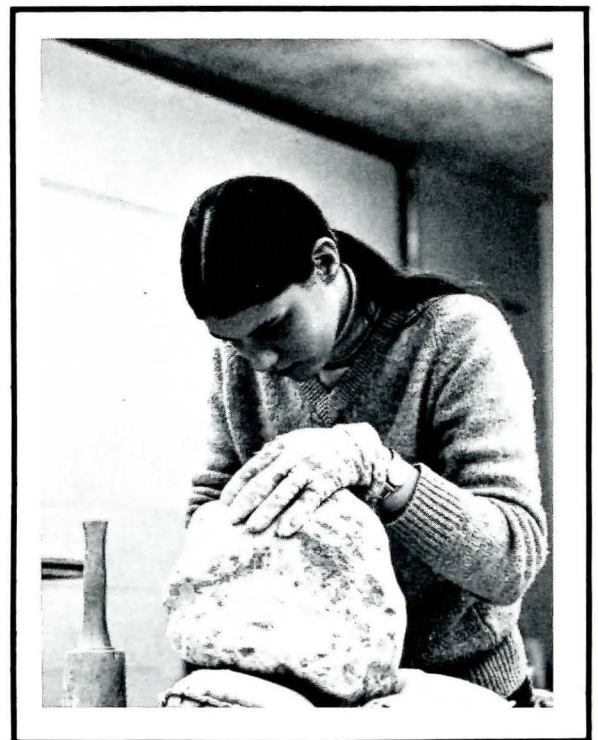

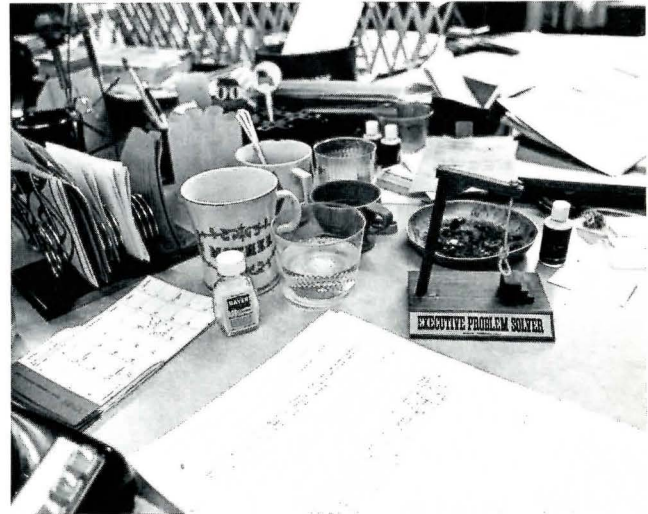

... It is a place where
inquiry is pushed forward

and discoveries verified
and perfected ...

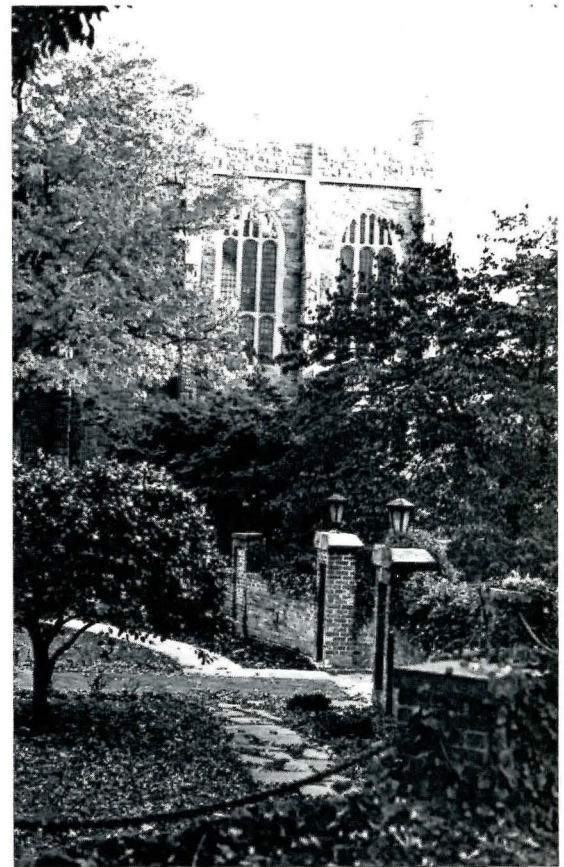

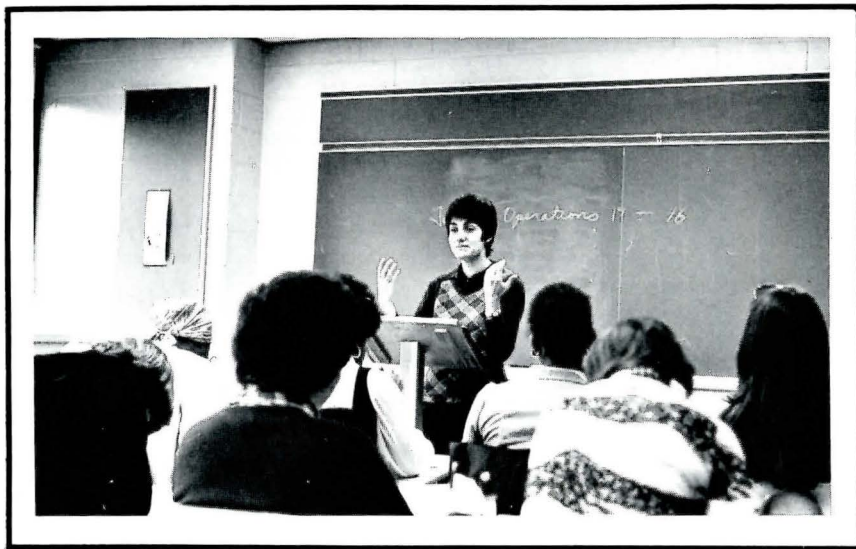

and rashness rendered
innocuous, and error exposed

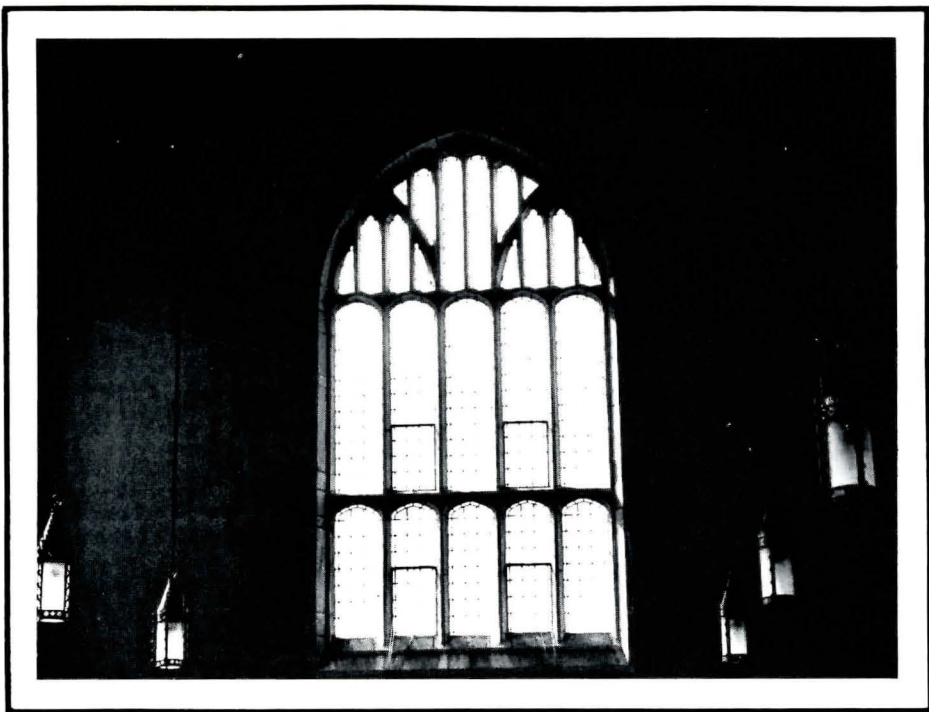

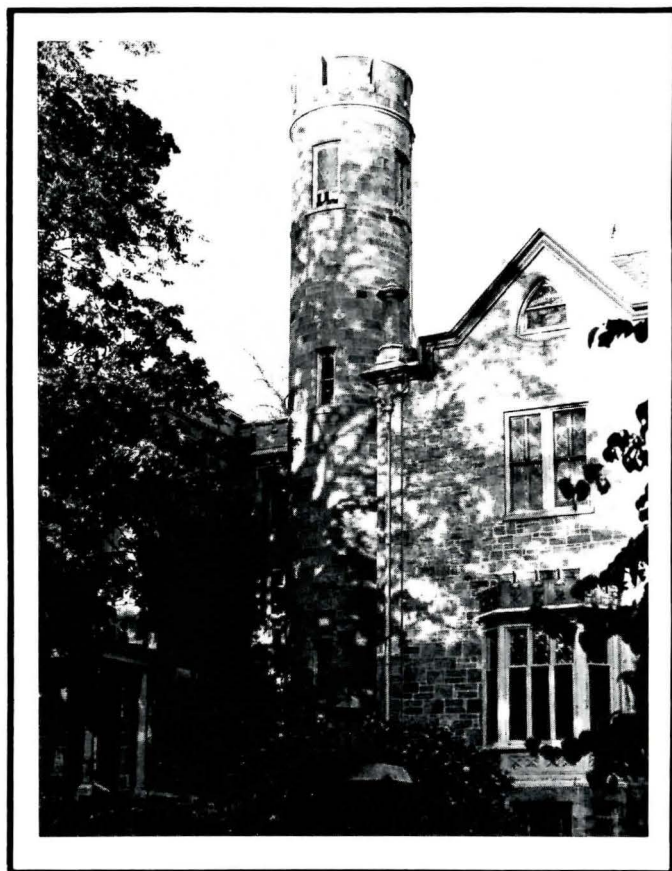

by the collision of mind with mind,
and knowledge with knowledge ...

... It is a seat of wisdom,
a light of the world,
a minister of the faith,
an Alma Mater of the
rising generation ...

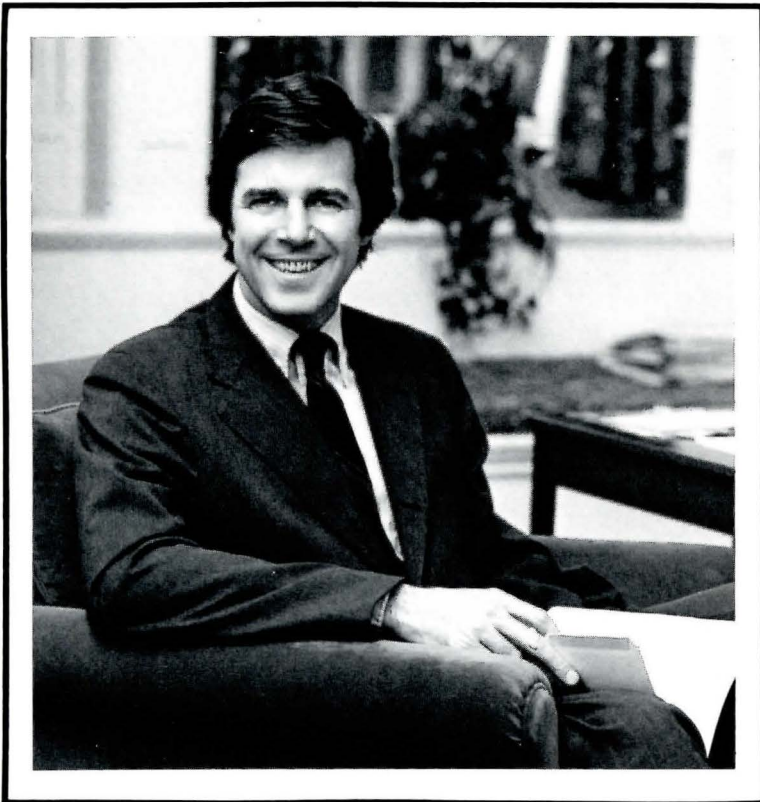

... It is this and a great deal more ...
